## HERE THEY ARE — SENSATIONS OF 1949 SEASON

Distribution of these varieties was limited a year ago, because of limited stocks. Supply is somewhat improved, but still too short to permit unlimited sale. A tip to small growers; get your start in these varieties this year, as stocks will not be available for release to large growers for two years. They will be widely grown.

We are headquarters for all releases of Mr. N. H. Lines, and have accepted the responsibility of advertising and marketing all varieties.

Have you been reading variety reports? Check them closely and you will find LA VALLE, CHINOOK, and NELLIE LOU to be among the ten best introductions of 1949.

**LA VALLE** (Lines—49)—A new leader in the 507 class. Light ivory cream with small orange throat marks. Consistently grows five feet tall. Opens eight 5½ inch florets. Extremely healthy and fine propagator. Texture is very heavy with florets tied tight to the spike. With commercial culture, LA VALLE is very consistent and will become one of our best cutters. With exhibition culture, LA VALLE is the outstanding variety in its color class. Equal in performance to the finest varieties on the market. Here is a variety that can thrive in a desert.

Any size bulb \$3.00. Bulblets 10 for \$2.00 with each bulb.

Dr. J. A. Cason, Tenn., reports: La Valle is simply stunning; if it has as good health as appears at first trial, it is probably the best variety to appear in this color class.

Sidney Mode, Canada, reports: I could do some winning with LA VALLE if I had sufficient stock.

Chas. Larus reports: A very outstanding new glad, possibly the best of 1949 introductions.

O. M. Farrington, Kentucky, reports: The three best in by test plot were LA VALLE, Nancy and White Challenge. LA VALLE was the best of the new introductions. It took the hot humid weather and grew shoulder high. It is a good glad, and by far the best I've seen in that color.

**CHINOOK** (Lines—49)—One of the giants of the glad world. A pure rich, clear salmon with no markings of any kind. Grows nearly six feet tall; always straight. Opens nine 6 inch florets, with plenty more in color. 30 inch flower head. Holds its size to the last bud. Propagation very good. Extra good keeper. Class 532. Mr. Lines places CHINOOK at the head of the list, but we give that honor to LA VALLE, because of its utility.

Any size bulb \$3.00. Bulblets 10 for \$2.00 with each bulb.

Don Henderson, Iowa, reports: One bulb gave me two fine spikes. Both were exhibited at state glad show at Waterloo. One placed first in its color class; the other second in recent introductions. Everyone was impressed by clarity of its color.

Dr. Cason reports: Chinook was the most robust grower in my entire patch.

C. Wesselman, Canada, reports: My what a glad. Sensational. Height 60 inches. Head 30 inches. Florets 7 inches. 9 open. 24 buds. No sign of wilt on our hottest days.

**NELLIE LOU** (Lines—49)—Almost a true flesh pink with small strawberry throat mark. Grows 5½ feet tall, always straight. Opens up to ten 5½ inch florets on a 30 inch flower head. Excellent keeper and shipper. Can take the bad weather and still make good. Not just another pink, and you will agree. Can win in any competition.

Any size bulb \$3.00. Bulblets 10 for \$2.00 with each bulb.

Sidney Mode, Canada, reports: One of my prize winners. Was not affected by our severe drought and heat. Ray Koenig, Iowa, reports: Grew 70 inches tall in the field. Entered state glad show at Waterloo. Won first in its class, also longest flower head in the show. 32½ inches. Also cut another good spike from the same bulb.

**BUFF QUEEN** (Lines—50)—Our candidate for next years best introduction, and we predict that it will make the top ten. A very rich orange buff with almost no markings. Grown 5½ feet tall, and will hold its florets open in the field for days without damage. Opens 10 or more 6 inch florets on an always straight spike. Texture is very heavy, and very good propagation. Perfect health.

Any size bulb \$5.00. No bulblets this year.

**ROSE PLUME** (Lines)—Here is a complete break in color. Nothing like it. A very soft velvety rose that leans slightly to the red side of rose. No markings of any kind, but a little lighter in the throat. Will open 10, with all the rest in color. 5½ inch florets on an 18 bud spike. Bulblet production and germination is good. Early bloomer.

Any size bulb \$3.00. Bulblets 10 for \$2.00 with each bulb.

Bruce Collins says this is one of the finest glads ever introduced, as it grows for him.

**KEEFER** (Lines)—478 class. Here is a mighty interesting deep blue, bordering slightly on the purple side. We believe that KEEFER is the largest of the blues. For exhibition, it is tops in its color. Almost an indigo blue, and just like velvet. For us, it has been flecking in hot weather to give a marbling effect. Will open up to 12 large florets, with the unopened buds adding greatly to its beauty.

Large \$2.00; 3 for \$5.00. Med. \$1.50; 3 for \$4.00. Small \$1.00; 4 for \$3.00. Bulblets 10 for \$1.50.

**DIADEM** (Lines)—This beautiful two toned rose is fast becoming a favorite with the florists. Quite similar to the color of old Oregon Rose, but with a much better spike. Will open ten 5½ inch florets on an 18 bud spike. Mildly fragrant when cut and opened indoors. 78 days. Good keeper. Fine for hybridizing.

Large \$2.00. M-\$1.50. 4-\$5.00.

**MYRNA FAY** (Lines)—Mr. Lines first release in 1945, and has been accepted as a reliable cut flower lavender. Very early. Opens nine 5 inch florets on a long spike. 100% cutter.

Large 50c, 10 for \$4.00. Medium 30c, 10 for \$2.40.

### Wholesale on good commercials

An introductory offer for the best bulbs you have ever received in an order. A small order will convince you that **good** bulbs can be purchased. Prices are now down to pre-war levels. Wholesale orders shipped F.O.B. Janesville, Wis., with sufficient extras to cover transportation.
